ish brings artists and communities together to explore Jewish and Israeli cultural traditions through the arts, and is best known for producing ish Festival, Cincinnati's biennial Jewish & Israeli arts and cultural festival. ish leverages Cincinnati's history as the oldest Jewish community west of the Allegheny Mountains, and positions Cincinnati as an ideal center to transform art and Jewish culture. While most Cincinnati Jewish institutions are located north of the city-center, ish activates downtown venues to return Cincinnati Jewish programming to its roots in the urban core.

Our Mission

ish brings artists and communities together to explore Jewish and Israeli cultural traditions through the arts.

Why ish?

Through a community cultural festival and auxiliary arts programming, ish celebrates Jewish and Israeli heritage outwardly with pride, and connects Jewish/Israeli-identifying artists with community members and curious culture-seekers from around the region. ish explores the broad spectrum of what it means to be Jewish and Israeli and presents a dynamic selection of artists, works of art and cultural experiences, from traditional to contemporary, religious to secular, Jewish to non-Jewish. By highlighting diverse Jewish/Israeli voices, identities, traditions, and arts disciplines, ish brings authenticity to the representation and complexity of the Jewish/Israeli experience, and responds to Cincinnati's changing Jewish demographic.

ish engages diverse participants to learn something new and experience Jewish and Israeli culture in an approachable way. Using art as a common language, ish provides choices for Jewish engagement that go beyond religious experiences, increasing accessibility and reaching new audiences, to build a more connected community.
